

Meeting

Passing stationary hazard with approaching vehicles

Parked on one side

Check mirrors – Assess priority – Plan early for position & speed

Can maintain safety line – 1mtr from parked vehicle maintain speed

Unable to maintain safety line – but enough room to get past slow down

“Reduce the Gap – Reduce the speed”

More time to react to: Pedestrians, Car doors

Not enough room to safely pass parked vehicle – slow down (sometimes can speed up)

Adjust speed to avoid both vehicles meeting!

Parked vehicles on both sides

No one has priority – Adjust your speed to avoid both vehicles meeting assess speed &

Position of other vehicle proceed with caution! Can be advantageous to give way
